Together Far Better

Correspondent or Bureau Chief

We do not give more importance for the Business part of the establishment. Even when we are aware the need of economic viability of every activity involved, we never want money to be a constraint for making an editorial decision of any of the Broadcasts in Global TV Channels.

Many people send broadcasts suggestions to Global TV through various channels like emails, Social Sites, SMS, Phones etc. Those are considered as well-wishers of Global TV and also responsible Citizens of the Nation.

One should be aware about their choices with Global TV. We are happy for non-commercial associations with people and institutions who are contented and concerned about the Social Good.

Make your Economic Interest at Entry Point itself....

Warm Regards
